Dear Bob:

I want to take this occasion to tell you how much I appreciate your help and understanding in handling all of the medical correspondence in connection with my brother's last illness. It was really a great comfort to me to know that you and the other doctors at NIH were taking such a personal interest in studying and evaluating all possible methods of treatment.

I also want to tell you how deeply I appreciate your thoughtful expression of condolences on my brother's death.

With every best wish.

Faithfully yours,
